YOUR FUND – YOUR DECISIONS

Dear Deferred Pensioner

A while ago you had retired from the service of PetroSA and decided to leave your benefits in the Fund.

This letter just serves to remind you what options are available to you as a deferred pensioner.

Your options are as follows:

- Continue to defer your benefits in the Fund – i.e. stay in the Fund until you decide to retire from the Fund or transfer your benefits out of the Fund into a retirement annuity fund or a provident preservation fund
- Transfer your benefits to a retirement annuity fund or a provident preservation fund
- Retire from the Fund

These are explained further below.

1. CONTINUE DEFERRING YOUR BENEFITS IN THE FUND – staying a “deferred pensioner” – RETIRE LATER

This means that your full benefit stays invested in the Fund UNTIL you decide to retire from the Fund or transfer your benefits to a retirement annuity fund or a provident preservation fund.

Your benefit in the Fund is called a **DEFERRED PENSIONER ACCOUNT** and is equal to your member individual account at the point of deferment plus investment returns less any benefits paid out (e.g. divorce orders etc) less fees. The fees are shown on page 6.

- No further contributions are paid to the Fund, though the Fund can still accept transfers from other approved funds, which will be added to your Member Individual Account.
- You will still need to decide where your funds are invested. The investment options available to you are shown on page 5.

The following benefits will be payable from the Fund:

DEATH BENEFITS

When?	When you die while being a deferred pensioner of the Fund
What?	Your deferred pensioner account
How?	The Trustees will allocate your death benefits in line with Section 37 C of the Pension Funds Act (but may be guided by your beneficiary nomination form)

TRANSFER BENEFITS

When?	When you decide to transfer your benefits out of the PetroSA Retirement Fund into a retirement annuity fund or a provident preservation fund
What?	Your deferred pensioner account
How?	Your transfer benefit will be transferred to the retirement annuity fund or a provident preservation fund of your choice

Transferred amounts are not subject to tax. Points to note about transfers to the various alternative vehicles:

Retirement Annuity Fund

It is important to note that you can only receive a benefit from a Retirement Annuity Fund on your retirement on or after age 55 (or on your earlier death or ill-health retirement)..

You should also be aware that the cost structure of a retirement annuity will be higher than that of becoming a deferred pensioner of the PetroSA Retirement Fund.

Preservation Fund

The main disadvantage of this option is that your costs are higher compared to leaving your money in the PetroSA Retirement Fund. You could pay commission at entry and the on-going administration fee could be as high as 0,5% per annum of the market value of your assets. The investment management fee could be as high as 1,5% per annum of the market value of your investment. If you elect to invest your money in a Preservation Fund make sure that you get full details of the commission, on-going administration fee and investment fees. An additional cost of say 1% per annum over 20 years will reduce your retirement benefit by as much as 20%!

RETIREMENT BENEFITS

The retirement benefit payable when you choose to retire from the Fund is as follows:

When?	When you choose to retire from the Fund (which can be after retirement from employment) Normal retirement age is 65 years (unless you have different conditions of service) Early retirement is permitted from the age of 55.
What?	Your deferred pensioner account
How?	Please see 2 below for details on how much cash and pension you can take.

The Fund will provide you with quotations for a **life annuity** (pension purchased from an insurer which is guaranteed to be paid until your death). The Fund also offers a **living annuity**, which functions like a bank account where you decide where the money is invested (within certain limits); and how much pension you take (within certain limits). You of course also have the option to choose any other permissible annuity of your choosing. Further and more detailed information will be provided to you on retirement.

2. RETIRE FROM THE FUND NOW

When?	Now
What?	Your member individual account
How?	You can use the full benefit to buy a pension from an insurer and / or from the Fund (the pension payments will be subject to tax) OR

You can take **a maximum of your full vested benefit plus one third of the non-vested benefit in cash** as a lump sum (though this will be subject to tax) and **use the rest to buy a pension** from an insurer and / or the Fund (the pension payments will be subject to tax)

Vested benefit: Any amount in any provident fund of which you were a member as at 1 March 2021 (including the PetroSA Fund) which is ultimately transferred into the PetroSA Fund (even if it is first transferred somewhere else), plus returns thereon. Plus, if you were over 55 and a member of the PetroSA Fund on 1 March 2021, the contributions to the PetroSA Fund after 1 March 2021, plus fund returns thereon. This amount may be taken in cash on retirement.

Non-vested benefit: Any amount contributed to any fund after 1 March 2021 plus returns thereon, which is ultimately transferred to the PetroSA Fund, and all contributions to the PetroSA Fund after 1 March 2021 (except for those who were over 55 and members of the PetroSA Fund as at 1 March 2021 in which case these are vested benefits). If this amount is lower than R247,500 at retirement, it may be taken in cash. If not, a maximum of one-third may be taken in cash and the remainder must be used to purchase a pension.

TAKING CASH

Any portion of the retirement benefit which you take in cash will be subject to tax. The current tax table (effective 1 March 2021) is as follows (please note that any previous amounts taken in cash from a retirement fund will be taken into account in this calculation):

Amount taken as a lump sum at retirement	Tax payable
R0 – R500 000	0%
R500 001 – R700 000	18% of the amount above R500 000
R700 001 – R1 050 000	R36 000 + 27% of the amount above R700 000
Above R1 050 001	R130 500 + 36% of the amount above R1 050 000

The more cash you take, the less is available to fund your pension.

BUYING A PENSION

You can choose to take a LIFE annuity (from an Insurer) or a LIVING annuity (from the Fund or from an external provider such as an insurer or asset manager). Though they sound the same, they are very very different. The differences are briefly shown in the table below:

	Life Annuity - Insurer	Living annuity – PetroSA OR Insurer OR asset manager
Vehicle	Insurance Policy	"Bank account"
Payable	As long as you live	Until living annuity balance is depleted
Pension amount	Set by insurer depending on type of pension, increases and terms	You decide this on an annual basis (within certain limits)
Investment choice	None	You decide how the living annuity balance should be invested – from the portfolios on page 5.
Decision making	At point of purchase for terms	Annual – amount of pension and investment
Inheritability	None (except where agreed)	Remaining living account balance
Ability to change later	Not permitted	Permitted – can purchase another living annuity of life annuity
Risks	Loss of capital on early death	Risk of outliving your capital

- The Fund does offer a living annuity. For further information please see the **In-House Living Annuity Guide** attached.
- Though the Fund does not offer a LIFE annuity, the Fund will obtain for you a commission free quotation from a provider (Old Mutual Platinum Pension 2003) for a with profits pension. For further information please see the **With Profits Annuity Guide** attached.
- Of course there are other LIFE annuities and LIVING annuities available to you. For further information please see the **Retirement Options Guide** attached. It is advisable that you speak to a financial advisor in making this choice.
- There is no tax payable on the amount used to purchase an annuity of any type, though the pension paid will be subject to income tax.

INVESTMENT OPTIONS

INVESTMENTS

The Fund offers you **MEMBER INVESTMENT CHOICE**. You need to decide which portfolios you want your member individual account or living annuity balance to be invested in from a range of portfolios (combinations are also permitted) as highlighted in the table below.

Portfolio name	Target return and comment	Asset allocation (as at 30 June 2021)
Market Linked Portfolio	Target return CPI + 5% per annum over a rolling 7 year period Highest potential return; highest volatility; highest chance of negative returns over short periods Most appropriate for long term investing (>10 years)	Strategic asset allocation determined by the Board. 46% SA equities (managed equally by Allan Gray, Coronation and Abax) 24% SA bonds (managed by Ninety One (37.5%), Coronation (37.5%) and Futuregrowth (25%)) 30% offshore (various managers across bonds (15%); equity (67.5%); listed infrastructure (7.5%) and listed property (10%))
Stable Portfolio	Target return of CPI + 3% per annum over a rolling 3 year period Lower volatility than the Market Linked portfolio	Actual asset allocation determined by the managers. 19.2% SA equity + 1.8% SA property 40.5% SA bonds + 6.5% SA cash 29.3% offshore + 2.7% other (commodities and hedge funds) (managed by Allan Gray (33.3%), Coronation (33.3%) and Ninety One (33.3%))
Money Market Portfolio	Target Return of CPI + 1% per annum Least appropriate for long term investing Most chance of capital preservation	100% SA cash and money market instruments (managed by Ninety One)
Shari'ah Portfolio	Target returns of CPI + 4% per annum over a rolling 5 year period Adheres to Shari'ah principles of the ban of interest and the ban on investment in certain sectors – eg conventional financial, alcohol and tobacco; non-halaal food production; some entertainment (eg casinos) and arms manufacturing.	Strategic asset allocation determined by the manager 37.8% SA equities + 4.5% commodities + 31.6% SA cash + 22.6% offshore equities + 3.6% offshore sukuk (managed by 27Four Investment Managers)

You can change the investment choice at any time (costs of switching are shown in the next section).

If you do not make a choice, your member individual account will remain invested in the same portfolios as current (if currently in Lifestage, will continue to be transitioned in the lifestage model). The Life Stage Model transitions you from the most aggressive portfolio (the Market Linked) to the least aggressive portfolio (the Money Market) in the 10 years prior to retirement as follows:

If you choose to take a living annuity from the Fund and not make an investment choice, your living annuity balance will be invested in the Stable Portfolio.

COSTS

Administration and Fund costs (applicable from 1 May 2021) applicable to deferred pensioners and living annuitants

- Deferred pensioners – Administration costs of R 44.05 pmpm plus VAT deducted from member individual account
